

# TAIL WHEEL FLIGHT TRAINING

If you are interested in acquiring stick and rudder skills and obtaining a tailwheel endorsement or becoming a Light Sport Aircraft Pilot or Flight Instructor, contact us today for an introductory flight.

## Light Sport Aircraft (LSA)

LSA is a new set of rules within the Federal Aviation Regulations that allow people to fly without a medical certificate and only with a Driver's License and obtain an LSA certificate with as little as 20 hours of flight time. Flight Dynamics offers several standard courses that are taught in the Aeronca Champ. These courses are:

- ✦ Basic Tailwheel Operations Course
- ✦ Advanced Tailwheel Operations Course
- ✦ Light Sport Pilot Course
- ✦ Light Sport Pilot Instructor Course
- ✦ Glider Tow Pilot Course
